

RESOLUTION NUMBER 178

CITY OF FERNAN LAKE VILLAGE

WHEREAS, the city council received a report at its regular meeting on November 3, 2014, from its engineer James Coleman regarding the City's costs for maintaining the sewer pump station at the two commercial properties that are now occupied. Those reported costs included estimates of administrative expenses and direct out-of-pocket payments for inspections and repairs. The reported costs did not cover equipment depreciation or replacement amortization.

WHEREAS, the engineer's report showed that the amount currently billed for the sewer maintenance at each commercial property (\$150.00) is significantly less than what the engineer's report shows as the actual costs to the City (\$434.50).

WHEREAS, a public hearing was held on December 1, 2014, on a proposed increase of the monthly sewer fees charged to the commercial property owners within the City pursuant to Idaho Code section 63-1311A with notice of that hearing having been mailed to the owners of the four commercial properties in accordance with that statute.

THEREFORE,

BE IT RESOLVED that the City of Fernan Lake Village that the fee charged by the City for sewer service to each commercial lot is increased by \$280.00 per month to a regular monthly charge of \$430.00. This increase will be in effect beginning the month of January 2015. Provided, however, this fee increase does not apply to a commercial lot that is not currently using the sewer service.

FURTHER, BE IT RESOLVED that a late fee of \$25.00 will be charged if the regular monthly fee is not paid within thirty (30) days.

DATED this 2nd day of December 2014

RICHARD JURVELIN
MAYOR
